

Visual Layout Round 1

Homepage Scaffold V1

Version One's layout also plays off of DST already established logo but uses more cut/hard edges to pull the users attention throughout the homepage layout. Using heavy muted icons to help even out the edge to edge color scheme creates a balanced/focused perspective down the page.

Homepage Scaffold V2

Focusing on more sharp, angled features, version two engages users right when landing on the homepage. Creating a non-perfect geometric shape plays well with the already established DST logo and theme and gives attention to the more muted elements on the page.
